- Head Start parents can carpool
- Public transportation
- School district bus for some areas.

Bear River Head Start is a program for pregnant women and children ages 0-5, including those with disabilities.

Preschool

Early Head Start

Home Based Services

Early Head Start

Early Head Start serves pregnant women and children 0-3 years old.

The Early Head Start Center-Based program offers respite and quality child care to pregnant mothers and children up to age three. The center operates with a ratio of four children to each teacher. Each teacher is trained in early child development to offer the highest standard of care. Early Head Start focuses on child development, parenting/attachment, nutrition, health, and providing information about literacy, employability, and meeting educational goals.

Families of infants/toddlers with disabilities or developmental delay receive coordinated services with Part C Providers.

Both Early Head Start & Preschool Head Start, programs offer Home Based in the following counties: **Box Elder, Cache, Rich, Bear Lake, Caribou, Franklin, Oneida and South Bannock**

Preschool Head Start

Preschool Head Start serves children 3-5 years old.

Center-based is a classroom experience for 3 and 4 years old children (child must be 3 years old by September 1st of the current school year or be at least 3 years old). Each child is treated as a unique individual and allowed to grow and develop at his/her own rate. Children grow, learn, and develop through an enriched environment with caring staff who want them to succeed. Each classroom has between 14 -18 children (depending classroom size) with a teacher and a teacher assistant. Classes are held Mon-Thurs. Morning, afternoon, and extended day (6.5 hours) classroom options depending on area.

Home-Based

The home-based program option is founded on the belief that parents are the first and most important teacher of their children. Learning occurs first in the home, the most natural environment. Parents are always teaching! With this philosophy in mind, families who enroll their children into the home-based program will receive Head Start services through a parent-focused approach. Services to children are primarily in the home through weekly home visits by a Family Educator. Parents and children are given opportunities to participate in social activities.
